- Art director
- Digital Marketing
- Graphic Design
- Photographi

Language

- English: Basic
- Persian: Native or Bilingual

Objective:

I am a professional and experienced designer who has recently immigrated to the UK. I aim to share my experience and expertise in a new work environment. I am eager to take on new challenges in an international setting. My goal is to contribute to the development and enhancement of innovative and aesthetically pleasing designs in this dynamic and diverse market. My aim is to pursue a successful and fulfilling career as an effective member of an exciting team in this field.

About Me

I bring a wealth of experience and a diverse skill set to the world of design. Over the years, I have had the privilege of working in various printing domains, from offset printing for magazines, books, and newspapers to fabric printing using sublimation techniques. Additionally, I have ventured into the realm of digital printing, specializing in large-format prints on materials like flex and vinyl.

My expertise extends beyond traditional printing, as I have also developed a keen eye for visual identity and branding strategies for organizations, both online and offline. I have worked extensively with small and medium-sized businesses, helping them define and elevate their brand identity.

My proficiency in photography, painting, and color coordination complements my graphic design skills. I consider myself a strong graphic designer and art director, thanks to my ability to harness these talents.

I am well-versed in industry-standard software, with a professional command of Photoshop and CorelDRAW, as well as a decent familiarity with Illustrator and Premiere. My experience in fashion and industrial photography has further honed my design sensibilities.

With a proven track record in a wide range of design disciplines, I am passionate about pushing the boundaries of creativity and delivering innovative solutions. My dedication to aesthetics and a deep understanding of visual communication have been pivotal in my design journey.

Work Experience

I have over fifteen years of experience in the field, and my work is readily available online for verification. You can find a collection of my graphic designs, photography, and more by searching my name in both Persian and English on popular search engines, such as Google.

I have also contributed to international publications, including typography designs featured in the 'NewTypography' book by Zeixs Publications, as well as shirt designs showcased in the 'T-shirt Design' book, also published by Zeixs. Additionally, many of my photographs have been downloaded over a thousand times on the <https://unsplash.com> platform.

In my home country, I ran an independent graphic design studio and held official membership in the Graphic Designers Guild of Iran.
